CORE COLLECTION

2024 WHOLESALE CATALOG

Eliza Minden

The Gaynor Minden pointe shoe is the first successful modernization of ballet's iconic footwear. It grew from my love and personal experience of ballet.

As an ardent amateur, I realized that sore toes did not make me a better dancer, and as the daughter of a ballet school founder, I knew that pointe shoe frustration was widespread. Later, as an administrator, I struggled to pay for pointe shoes only to see them worn out after just one show, and I saw beautiful dancers sidelined by injury.

Borrowing my brother's bandsaw, I cut open traditional pointe shoes and found cardboard, paste, burlap, and even

newspaper. From sports I knew that modernized equipment makes all the difference in the comfort, safety, and enjoyment of physical activity. Why then were dancers — the most elite athletes of all — using such antiquated shoes? Other artists enjoy the benefits of progress in countless ways, from painters' vivid pigments to musicians' superbly engineered instruments — why not dancers, too?

Putting my outrage into action, I quit my job to study the materials that had revolutionized modern footwear. I recruited scores of ballet teachers, dance medicine experts, and professional dancers in New York and, in 1993, after eight years in testing and research, Gaynor Minden made its debut.

Our shoes are handmade using a unique manufacturing process that is both state-of-the-art athletic shoe science and traditional, artisanal craftsmanship. My husband, John Minden, is C.E.O. and deserves more credit than he ever gets. I continue to design for dancers.

Eliza Minden developing the Gaynor Minden pointe shoe

The company that John and I started in our small Manhattan apartment thirty-one years ago is now a global brand. We're gratified that independent medical research confirms Gaynor Minden's superiority in promoting safe and correct technique. We are honored that respected teachers recommend them, and that over 200 of the world's great companies buy them. We hope you like them too.

May ballet always bring you joy,

Eliza Gaynor Minden Head of Design

T.L.C. RIBBON

Your feet and ankles deserve some T.L.C.: Tendon Loving Care. Pointe shoe ribbons must tie snugly to look neat and professional, but standing flat they can chafe the Achilles tendon. SA-T-109

HEEL GRIPPERS

Super useful Gaynor Minden Heel Gripper actually keeps your shoes on your heels. Its textured surface really holds your foot, while the peel-and-stick backing keeps gripper locked in place. And, by filling in the extra space around your heel, it makes the back of the shoe beautifully smooth, sleek, and free of lines and wrinkles. Especially helpful for dancers with narrow heels.

SA-F-110

ADHESIVE SOCKLINERS

The Solution.

Fine-boned feet, delicate feet, narrow feet, shallow feet, and even ordinary feet struggling in between sizes — Rejoice! So many fittings are made so much better by the simple addition of Adhesive Sockliners, the insoles that stay in place. Made from Poron® Performance Cushioning. One size.

SA-F-140

TOE ALIGNERS

Use Toe Aligners between the big toe and second toe to help align the metatarsals en pointe and promote correct alignment of the bunion and big toe joints. They are especially helpful for dancers who have bunions, a long second toe, and/or a large space between the big and second toes. Made from Poron® Performance Cushioning.

SA-F-143

VAMP ELASTIC

Going over? Popping out? Suffering from your gorgeous arches? Stitch Vamp Elastic in the throat of your shoe and feel the added support that an extra-deep vamp would provide — with no compromise of demi-pointe and no special order. 15" (38 cm) ample for one pair of shoes. Instructions included.

ROLLER KIT

Kiss muscle tension goodbye!

Dancers are increasingly integrating the tools of sports science and physical therapy in their daily warm up and recovery routines, yet most of the equipment they rely on was created for sports, not dance.

Our kit is designed just for dancers and contains all the essentials for targeting the muscles and fascia most in need of relief before and after a long day in the studio.

Lightweight and compact — great for travel!

- DANCER'S ROLLER Relieves tension in the back, IT band, hips, and legs.
- MINI ROLLER Targeted relief for sore and tight calves.
- **LARGE MASSAGE BALL** Perfect for massaging hip flexors and the psoas.
- **SMALL MASSAGE BALL** Gets into the intrinsic muscles of the feet.
- MICRO VELVET MAT More comfortable (and cleaner!) than the floor.
- CARRYING BAG A shoulder strap makes the whole kit ultra portable!
